**Montana Standards for Arts**

*Arts have intrinsic value. They cultivate the whole child, building many kinds of literacy while developing intuition, reasoning, creativity, imagination, and dexterity into diverse forms of expression and communication. The Arts enable students to make decisions and seek multiple solutions. They improve perception, reflection, and creative thought. They advance higher order thinking skills of analysis, synthesis and evaluation. The Arts provide powerful tools for understanding human experiences and cultures—past, present and future.*

*Arts education engages students in a creative process that helps them develop the self-motivation, discipline, cooperation and self-esteem necessary for success in life.*

*The Arts consists of Dance, Music, Theatre and Visual Arts. The content and performance standards for the Arts describe what all Montana students should know and be able to do in the Arts. Although literary arts are generally considered a part of the Arts, standards for the literary arts are integrated throughout the Communication Arts.*

---

**Content Standards** indicate what all students should know, understand and be able to do in a specific content area.

**Benchmarks** define our expectations for students’ knowledge, skills and abilities along a developmental continuum in each content area. That continuum is focused at three points—at the end of grade 4, the end of grade 8 and grade 12.

---

Content Standard 1—*Students create, perform/exhibit, and respond in the Arts.*

Content Standard 2—*Students apply and describe the concepts, structures, and processes in the Arts.*

Content Standard 3—*Students develop and refine arts skills and techniques to express ideas, pose and solve problems, and discover meaning.*

Content Standard 4—*Students analyze characteristics and merits of their work and the work of others.*

Content Standard 5—*Students understand the role of the Arts in society, diverse cultures, and historical periods.*

Content Standard 6—*Students make connections among the Arts, other subject areas, life, and work.*
Arts Content Standard 1

Students create, perform/exhibit, and respond in the Arts.

Rationale

Students understand and express themselves in depth through an art form by:

• generating original art;
• participating, re-creating, and exhibiting; and
• reacting and placing value.

As a result, they arrive at their own knowledge and beliefs for making personal and artistic decisions.

Arts Content Standard 3

Students develop and refine arts skills and techniques to express ideas, pose and solve problems, and discover meaning.

Rationale

Artistic expression is a critical form of self-expression and communication requiring specific skills, knowledge, and techniques. In the Arts there is no one correct answer. Students must exercise judgment. This helps to develop the ability to weigh the benefits among alternative courses of action. This process yields multiple rather than singular solutions.

Arts Performance Standards: A Profile of Four Levels

The Arts Performance Standards describe students’ knowledge, skills and abilities in the Arts content area on a continuum from kindergarten through grade twelve. These descriptions provide a picture or profile of student achievement at the four performance levels—advanced, proficient, nearing proficiency and novice.

| Advanced | This level denotes superior performance. |
| Proficient | This level denotes solid academic performance for each benchmark. Students reaching this level have demonstrated competency over challenging subject matter, including subject-matter knowledge, application of such knowledge to real-world situations, and analytical skills appropriate to the subject matter. |
| Nearing Proficiency | This level denotes that the student has partial mastery or prerequisite knowledge and skills fundamental for proficient work at each benchmark. |
| Novice | This level denotes that the student is beginning to attain the prerequisite knowledge and skills that are fundamental for work at each benchmark. |
